

CLIENT INFORMATION

Client Name: Power Diagnostics

Project: Web Platform Modernization & Dynamic Catalog

Tech Stack: Angular (SSR) + .NET Clean Architecture + PostgreSQL

DELIVERY & SUPPORT SUMMARY

Scope: Full Application Source Code & Deployment

Support: 1 Year 100% Free Support Included

Total Fixed Price: ₹1,75,000 INR (1.75 Lakhs)

1. EXECUTIVE SUMMARY & ARCHITECTURE

Conversion of the static Power Diagnostics website into a high-performance, dynamic web platform. The platform features an **Angular Server-Side Rendered (SSR)** frontend for maximum search engine visibility (SEO), a robust **.NET Web API (Clean Architecture with CQRS & MediatR)**, **PostgreSQL** database with EF Core, **Azure Blob Storage** for image/PDF assets, and **Azure Functions** for serverless email processing.

2. SCOPE OF MODULES & DELIVERABLES

A. Angular SSR Frontend (SEO Ready)

- Server-Side Rendering (SSR):** Full pre-rendering for Google/Bing indexing.
- Header:** Search bar, Quick Connect pop-up & Enquiry Cart modal.
- Home Page:** 6-7 sliding banners, 10 featured products, services grid, category highlight cards, brands carousel, and floating WhatsApp/Social overlays.
- Catalog Page:** Left sidebar filters (by Brand & Category/Subcategory).
- Product Details:** Dynamic specifications table, multi-angle photo gallery, features, and PDF downloads.

B. Admin Management Portal

- Admin Auth:** Secure JWT authentication and role protection.
- Brand Master:** Manage brands and upload logos to Azure Blob Storage.
- Category & Subcategory:** Hierarchy, icons, and banner setup.
- Product Master:** Rich dynamic specifications builder, multi-image uploader, and downloadable PDF datasheet manager.
- Enquiries Dashboard:** Review, filter, and track customer quotation requests.

C. Backend API (.NET Clean Architecture)

- Clean Architecture:** Domain, Application, Infrastructure, and API layers.
- CQRS & MediatR:** Segregated Command and Query pipelines.
- PostgreSQL + EF Core:** Relational schema with LINQ queries & migrations.
- Repository & Unit of Work:** Clean abstracted data access.
- Automated Testing:** xUnit unit and integration test suite.

D. Serverless Email & Cloud Integrations

- Azure Functions:** Queue-triggered serverless email pipeline.
- Customer Confirmation:** Automated branded quotation receipt email.
- Sales Team Alert:** Instant lead email to internal sales inbox.
- SEO Dynamic Engine:** Dynamic Title, OpenGraph tags, sitemap.xml, robots.txt, and Schema.org JSON-LD structured data.

3. HANDOVER & DELIVERABLES CHECKLIST

- Complete Source Code:** Backend (.NET Clean Architecture), Frontend (Angular SSR), and Azure Functions.
- Database Assets:** PostgreSQL EF Core migrations and initial seeding scripts.
- Deployment Assets:** Dockerfiles, CI/CD pipeline configs, and Swagger API docs.

4. COMMERCIAL QUOTATION (FULL CODE DELIVERY)

ITEM	DELIVERABLE MODULE / PHASE	AMOUNT (INR)
1.0	PostgreSQL Database Architecture & .NET Clean Architecture API Core Schema design, EF Core migrations, Repository pattern, and CQRS foundation.	₹26,000
2.0	Master APIs (Brand, Category, Subcategory, Product, Blob Storage) & xUnit Suite Full CRUD endpoints, Azure Blob integration, and automated unit test suite.	₹35,000
3.0	Admin Management Web Portal (Catalog & Enquiries Dashboard) JWT login, brand/category management, product editor with spec builder & inquiry viewer.	₹31,000
4.0	Public Customer Portal & Angular SSR Frontend Home page, sidebar catalog filters, dynamic product detail view & inquiry checkout cart.	₹48,000
5.0	Serverless Azure Functions Email Engine, WhatsApp Integration & SEO Setup Queue-triggered automated email delivery, WhatsApp quick chat, OpenGraph & JSON-LD.	₹20,000
6.0	Cloud Deployment Setup, CI/CD Pipeline & Complete Source Code Handover Azure resource configuration, deployment scripts, documentation & complete repository.	₹15,000
TOTAL PROJECT INVESTMENT:		₹1,75,000 INR

5. MILESTONE-BASED PAYMENT SCHEDULE

MILESTONE STAGE	DELIVERABLE TRIGGER	%	AMOUNT (INR)
Milestone 1	Project Initiation, Architecture Design & Clean Architecture Core Setup	25%	₹43,750
Milestone 2	Backend Master APIs + Admin Management Portal UI	25%	₹43,750
Milestone 3	Angular SSR Customer Web App + Product Catalog & Enquiry Cart	25%	₹43,750
Milestone 4	Azure Function Mailer, Final Deployment & Full Source Code Handover	25%	₹43,750
TOTAL:		100%	₹1,75,000

6. MICROSOFT AZURE CLOUD HOSTING (DIRECT CLIENT BILLING)

Direct Client Payment Clause: All Microsoft Azure Cloud infrastructure and hosting charges are **paid directly by the Client to Microsoft Azure** using the Client's corporate credit card on a monthly pay-as-you-go basis.

AZURE RESOURCE	SIZING / TIER	EST. MONTHLY (INR)
Azure Database for PostgreSQL	Flexible Server (B1ms Burstable, 32GB Storage)	~₹1,800 – ₹2,500 / mo
Azure App Service / Container Apps	Linux Basic B1 / Free-Shared plan for API & Angular SSR	~₹1,000 – ₹1,800 / mo
Azure Blob Storage & CDN	Standard Hot/Cool storage for logos, product photos & PDFs	~₹250 – ₹450 / mo
Azure Functions & Transactional Email	Serverless Consumption (1 Million calls free) + SendGrid free tier	₹0 / mo
ESTIMATED TOTAL AZURE HOSTING (Billed to Client):		~₹3,050 – ₹4,750 / mo

7. SUPPORT & MAINTENANCE TERMS

1 Year 100% FREE Ongoing Support: Includes 12 full months of post-launch technical support, bug fixing, database indexing, performance monitoring, and minor content adjustments at **zero extra cost**.

Post-Year 1 Policy: After 1 year, support for major feature developments, new module additions, or large architectural changes will be chargeable on an agreed estimate or optional annual maintenance contract (AMC).
